

Table 1: Regulatory Threshold Range of Impacts from Disproportionate to Proportionate for a National Ambient Air Quality Standard (NAAQS) Limit of 100. All concentrations represent the maximum value for comparison to the NAAQS limit. Background represents the concentration from outside the study area. Cumulative Impact represents the concentration from other facilities in the area. Community Impact represents the concentration from the facility itself.

NAAQS Limit	Background	EJ Community			Comparison Community Grey			Comparison Community Blue			Range of Impacts
		Community	Cumulative	Total	Community	Cumulative	Total	Community	Cumulative	Total	
		Impact	Impact	Impact	Impact	Impact	Impact	Impact	Impact	Impact	
100	25	25	35	85	0	0	25	0	0	25	Disproportionate
100	25	25	35	85	20	5	50	0	0	25	
100	25	25	35	85	20	10	55	15	10	50	
100	25	25	35	85	20	20	65	15	20	60	
100	25	25	35	85	20	25	70	15	25	65	
100	25	25	35	85	25	30	80	15	30	70	
100	25	25	35	85	25	35	85	25	35	85	Proportionate
